THE ORIGINAL ITALIAN SURFACE ®

MARBLE COLLECTION

santamargherita

Engineered Marble Collection

Natural marble chips in a considered mix of colours and sizes give every slab its character. Combined with resin and formed into engineered marble, they create surfaces that balance the beauty of stone with a consistent finish.

Explore a collection that moves from quiet, finely textured neutrals to expressive patterns and bold contrasts. Suitable for a range of interior applications, these slabs bring depth and individuality to walls, floors, vanities and architectural details.

Discover the collection at the AMS Welland Showroom and see the colours and textures in person.
