PIECES BEIGE

PIECES DARK GREY

The Fragments Collection explores the visual relationship between marble fragments and semi-transparent resin, creating surfaces with depth, movement and a refined layered quality. The PIECES design features stone fragments that appear to emerge and recede across different planes within a fluid material, while RESINS places the resin effect at the forefront to create a softer, more continuous surface.

Enhanced by DEEPLY REAL technology, both designs are available in Naturale and Levigato-Matt finishes. PIECES is offered in Ivory, Beige, Greige and Dark Grey, while RESINS is available in the same palette with the addition of Fog.
